Dear Hal,

Salinger was on A.B.C. discussing T.W.A. 800, and Sam Donaldson leaned over and said "; Next thing you'll be going to tell us Pierre, is that there was more than one gunman in Dallas!"

At least a recent poll indicates 88% believes in a conspiracy! But the media elite remain frozen in a 1964 mind set.

The current state

of J.F.K. research is pretty poor.

The Crazy Zapruder alteration theory is much debated on the internet.

Hell, Hal, Perry Adams came up with that theory over 30 years ago. With Fred Newcomb. Liston is stealing that theory like he stole their Body alteration theory.

What a rip off artist! But David Liston is unbeatable in what he steals.

Hope all is well.

Sincerely,
Ed Williams
